From Routledge : Foreign Investment and Dispute Resolution Law and Practice in Asia (Routledge Research in International Economic Law) before purchasing it in order to gage whether or not it would be worth my time, and all praised Foreign Investment and Dispute Resolution Law and Practice in Asia (Routledge Research in International Economic Law):

This book considers foreign investment flows in major Asian economies. It critically assesses the patterns and issues involved in the substantive law and policy environment which impact on investment flows, as well as the related dispute resolution law and practice. The book combines insights from international law and comparative study and is attentive to the socio-economic contexts and competing theories of the role of law in Asia. Contributions come from both academics with considerable practical expertise and legal practitioners with strong academic backgrounds. The chapters analyze the law and practice of investment treaties and FDI regimes in Asia looking specifically at developments in Japan, India, China, Indonesia, Malaysia, Korea and Vietnam. The book explores the impact of the Asian Financial Crisis in the late 1990s and the Global Financial Crisis a decade later, examining actual trends and policy debates relating to FDI and capital flows in Asia before and after those upheavals. Foreign Investment and Dispute Resolution: Law and Practice in Asia is a valuable resource for practitioners, academics and students of International and Comparative Law, Business and Finance Law, Business, Finance and Asian Studies.
