**GEORGE YOUNG, William Hopwood, Jay Leiner : Forensic Accounting and Fraud Examination (Irwin Accounting)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Forensic Accounting and Fraud Examination (Irwin Accounting):

0 of 0 people found the following review helpful. Not perfect, but acceptable for studying  
By Alexa  
In general book is in good condition. But there are a lot of marks on the pages.  
0 of 0 people found the following review helpful. Be careful of Cheaper Photo-Copied Books From Florida Seller  
By Customer 33  
The book received was a photo copy from an 3rd party vendor in Florida. It had a color hard-bound exterior, but the inside had 0 color pages (as it should), and smelled like laser toner. I contacted the publisher who verified that the book was fraudulently produced. This rating reflects on the SELLER and not the actual book. The book looked like it would have been a great read if it were not for trying to read dark gray pages on black text (result of photo copying). Returned book.

By Maui Time  
For \$200 I expect more than one license. The standard is 6. Even 2 would be ok. One for the PC and one for a mobile device. I would return this if it wasn't required for a class.

Grounded firmly in real-world practice, Forensic Accounting provides the most comprehensive view of fraud investigation on the market. Where other books focus almost entirely on auditing and financial reporting, Hopwood, Young, and Leiner include a vast range of civil and criminal accounting fraud and related activities, from false business valuations and employer fraud to information security and counter-terrorism. The author team provide experience in fraud investigation that lends the book real-world perspective unmatched by any other.
