**Grzegorz W. Kolodko : From Shock to Therapy: The Political Economy of Postsocialist Transformation (UNU/WIDER Studies in Development Economics)** before purchasing it in order to gage whether or not it would be worth my time, and all praised From Shock to Therapy: The Political Economy of Postsocialist Transformation

(UNU/WIDER Studies in Development Economics):

This is the first comprehensive study of the economics and politics of postsocialism in thirty transition countries in Europe and Asia. The author, the architect of Poland's successful reforms, compares initial conditions, shifting target models, paths to reform, and progress to date. He offers sensible policy alternatives to the Washington Consensus.
