Lourdes Beneria : Gender, Development and Globalization: Economics as if All People Mattered before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gender, Development and Globalization: Economics as if All People Mattered:

With Cold War politics lost as the organizing principle behind international politics, development has become the

most important policy goal of every international organization. There is an underside (and a human side) to development, and feminism has made inroads into the highly technical debates and frothy prophecies by examining what the future really holds for the people who will live it. This book highlights the ways in which feminist analysis has contributed to a richer understanding of international development and globalization. By combining theoretical, empirical, and political perspectives and discussing cutting-edge debates around development, globalization, economic restructuring, and feminist economics, *Gender, Development and Globalization* presents the ultimate primer on global feminist economics.
