dehyun sohn, Hee-Jung Jang, Timothy Jung : Go Slow and Curvy: Understanding the Philosophy of the Cittaslow slowcity Phenomenon before purchasing it in order to gage whether or not it would be worth my time, and all praised Go Slow and Curvy: Understanding the Philosophy of the Cittaslow slowcity Phenomenon:

This book introduces readers to the concepts of sustainability and philosophy of slowness for the management of

public entities such as cities or regions. While many urban communities face economic challenges that clearly show the limitations of growth and ever-increasing speed, this book explores an alternative, thought-provoking standpoint in five chapters. The first chapter explains the importance and essence of slowness, smallness and sustainability for public organizations, while the second addresses the concept of "slow life" in an emotional society. Chapter three examines the issue of "slow management" and presents arguments for the value of small businesses as the true foundation of the economy. Chapter four rounds out the coverage with a focus on agriculture. Finally, in chapter five, the authors discuss the overall benefits of a "slow and curvy" management style in order to provide happiness, economic and social sustainability.

From the Back Cover This book introduces readers to the concepts of sustainability and philosophy of slowness for the management of public entities such as cities or regions. While many urban communities face economic challenges that clearly show the limitations of growth and ever-increasing speed, this book explores an alternative, thought-provoking standpoint in five chapters. The first chapter explains the importance and essence of slowness, smallness and sustainability for public organizations, while the second addresses the concept of "slow life" in an emotional society. Chapter three examines the issue of "slow management" and presents arguments for the value of small businesses as the true foundation of the economy. Chapter four rounds out the coverage with a focus on agriculture. Finally, in chapter five, the authors discuss the overall benefits of a "slow and curvy" management style in order to provide happiness, economic and social sustainability.

About the Author Professor Dehyun Sohn is one of the leading tourism scholars in Korea and introduces the Cittaslow management to Korea. He leads the National Cittaslow Korea Network and is vice president of Cittaslow International. Dr. Hee-jung Jang is a professor at Silla University, Korea and a member of the Cittaslow International Scientific Committee. Dr. Timothy Jung is a professor at Manchester Metropolitan University, UK and a director of Creative Augmented Realities Hub. He is an explorer, who investigates the harmony between digital technologies and the Cittaslow movement.
