Very inspiringBy CustomerI really liked the storytelling way the authors follow in this book to deliver those important concepts and advices on Business and success in life.

Good Luck is a whimsical fable that teaches a valuable lesson: good luck doesn't just come your way—it's up to you to create the conditions to bring yourself good luck. Written by Alex Rovira and Fernando Trias de Besm—two leading marketing consultants—this simple tale is universally applicable and uniquely inspirational. Good Luck tells the touching story of two old men, Max and Jim, who meet by chance in Central Park fifty years after they last saw each other as children. Max achieved great success in life; Jim sadly did not. The secret to Max's success lies in a story his grandfather told him long ago. This story within a story has a tone reminiscent of the classic *The Alchemist* and shows how to seize opportunity and achieve success in life. In a surprise ending, Good Luck comes full circle, offering the reader inspiration, instruction, and an engaging tale.

From Publishers WeeklyThis charming, easy-to read volume explains the difference between luck, which "doesn't last long, because it does not depend on you" and Good Luck, which "is created by each of us: that's why it lasts forever." In friendly, fairy tale style, the authors tell a story of two knights seeking to find a magic four-leaf clover in an enchanted forest, and along the way impart wisdom about making one's own luck. The allegory is peppered with "Rules of Good Luck" and other mantras that manage—most of the time—to ring true. The knight who makes his own luck and ultimately succeeds, of course, is the one who sees obstacles and challenges, not insurmountable impediments, and who works to overcome them intelligently. He creates new conditions, seeks to help others, is unafraid to take action, doesn't give up and realizes that opportunity is always out there. The story is inspiring, and a series of quotes from celebrities and sages near the end reinforces the idea that success comes from learning how to make one's own luck.
