He was delighted!By dutchw48I purchased this as a gift for an old high school friend who is now living in Las Vegas where he has performed acts as Howard Hughes on stage and video. He is a devout Hughes historian and he told me that he has been unsuccessfully trying to locate this book for some time. I found it on Marketplace in a used copy and had it sent to him. He was delighted! Apparently this book delves into some Hughes scandals that are not well explored elsewhere, including suspicions regarding Hughes death.0 of 0 people found the following review helpful. As Much As You'll EVER Want To know About Howard Hughes!By The DreammakerI read this book right before reading the book on Oscar Goodman; Of Rats and Men!The only reason I gave this book a 4 rating was because, while HH was a very eccentric person, the Author seemed to dwell on his idiosyncrasies in way too much detail and on too many occasions! Once or twice was fine, but 7-8 times, Too Much Information.The Author delves deep into HH's childhood,

and his health issues then (Mom inspired I believe), and throughout his life. There were so many different things that HH and his group were involved in, it was amazing that he could keep up. It's ashamed that HH floated off into mental illness, because he was brilliant. Read it, you'll enjoy it! 1 of 1 people found the following review helpful. but its a v good book
By McGee
His life, my madness for wasting my time reading other people's life stories... but its a v good book though

The life that inspired the major motion picture *The Aviator*, starring Leonardo DiCaprio and directed by Martin Scorsese. Howard Hughes has always fascinated the public with his mixture of secrecy, dashing lifestyle, and reclusiveness. This is the book that breaks through the image to get at the man. Originally published under the title *Empire: The Life, Legend, and Madness of Howard Hughes*.
