**Barbara Harriss-White : India Working: Essays on Society and Economy (Contemporary South Asia)** before purchasing it in order to gage whether or not it would be worth my time, and all praised India Working: Essays on Society and Economy (Contemporary South Asia):

By drawing on her extensive fieldwork in India and on the adjacent theoretical literature, Barbara Harriss-White

describes the working of the Indian economy through its most important social structures of accumulation. Successive chapters explore a range of topics including labour, capital, the state, gender, religious plurality, caste and space. Despite the complexity of the subject, the book is vivid and compelling. The author's intimate knowledge of the country enables the reader to experience the Indian local scene and to engage with the precariousness of daily life. Her conclusion challenges the prevailing notion that liberalisation releases the economy from political interference and leads to a postscript on the economic base for fascism in India. This is an intelligent book, first published in 2002, by a distinguished scholar, for students of economics, as well as for those studying the region.

"This book engages with a wide range of scholarship grounded in different disciplines to expand our understanding of how the contemporary Indian economy works. [D]ue credit must also be given to the author Barbara Harris-White for her self-conscious effort to converse with theories and empirical works outside the formal confines of economic studies." Prakash Kumar, Georgia Institute of Technology, Enterprise and Society  
About the Author  
Barbara Harris-White is Professor of Development Studies at Queen Elizabeth House, and Fellow of Wolfson College, University of Oxford.
