From Butterworth-Heinemann : International Accounting and Transnational Decisions before purchasing it in order to gage whether or not it would be worth my time, and all praised International Accounting and Transnational Decisions:

International Accounting and Transnational Decisions explores a wide range of significant international accounting issues with special reference to the comparative development of national systems of accounting, international accounting standards, transnational financial reporting issues and financial planning and control in the multinational

corporation. The book is organized into five parts. Part I discusses the international dimensions of accounting including both the financial reporting and managerial decision-making perspectives. The second part is concerned with the comparative international aspects of accounting. The Part III presents developments and questions relating to international accounting standards. The fourth part considers a number of selected transnational financial reporting issues of concern both to managers and financial statement users. The last part takes a managerial perspective in its coverage of important problems of transnational financial decision making and control. Accountants and students of accounting will find the book useful.
